

CIMPULSE[™] 58MP

High Performance Metalworking Fluid

APPLICATION:

CIMPULSE[™] 58MP is a multi-purpose, heavy-duty fluid for machining and grinding. It offers high performance in applications such as turning, drilling, milling, reaming, boring, tapping, broaching, sawing, and grinding applications. Good on most metals other than magnesium alloys or cast aluminum.

FEATURES & BENEFITS:

- For most metals and all operations
- For use in a wide range of water qualities
- Good foam control in soft water and high pressure applications
- Does not contain DCHA or triazine
- Machines stay clean and parts are easy to wash
- Fortified with extreme pressure lubricants for difficult machining and grinding operations

RECOMMENDED STARTING DILUTIONS:

CIMPULSE[™] 58MP is to be mixed with water for use. Always add concentrate to water. Add no materials to the concentrate or mix unless approved by CIMCOOL[®] Technical Service.

- Machining and Grinding: 5% to 10%
- The refractometer factor is 1.0
- 5% Mix pH is typically 9.2

SAFETY DATA SHEET:
